

DIMENSIONAL SIGNAGE

Your signs and letters need to shape up to stand out!

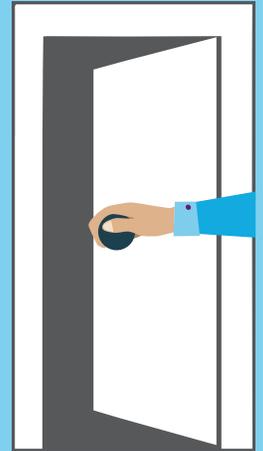

DEPTH

Is The Differentiator

For greater noticeability, readability and memorability, few solutions are more effective—or affordable—than dimensional signs and letters.

Improve Your Reception

Lobbies and conference rooms are popular places for dimensional letters and logos, where they seldom fail to impress visitors!

DEEP THOUGHTS?

Typically, dimensional signs range from 1/16" in thickness to three inches or more, depending on their overall size and application.

By Another Name, 3D Signage:

DISTINCTION

DRAMATIC PRESENCE

Shed Some LIGHT On It

Back lit,
face lit or halo lit?
Add illumination
to make your
dimensional sign an
even greater standout!

MATERIAL DIFFERENCES

A choice of metal, plastic or wood helps ensure your dimensional signs—whether used indoors or out—deliver not only a great appearance but also long-lasting value.
